DETAILED ACTION

Summary

1. This Office Action is based on the Amendment filed with the Office on June 15, 2009, regarding the SPRINGHORN et al. application.
2. Claims 11-15 and 17-21 are currently pending and have been fully considered.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: Independent claim 1 has been amended to recite, *inter alia*, the second heater supply lead forms a continuous printed trace with the heater; independent claim 21 has been amended to recite, *inter alia*, the second heater supply lead extending from the heater. These limitations were not found to be anticipated after a search of the prior art, nor are they obvious to a skilled artisan to include as part of the sensor element. The closest prior art is IMAMURA et al. (US 6,338,782 B1), which has been previously made of record. IMAMURA et al. discloses a gas sensor usable for measurement of an exhaust gas (Col. 1, lines 5-10), comprising: a measuring device configured to detect a physical property of the gas, in the form of a measurement gas chamber (Col. 4, lines 5-10); a heating device including a heater (50, Figure 4), which is electrically connected to a first heater supply lead (552, Figure 4) and a second heater supply lead (551, Figure 4); wherein the first

heater supply lead is arranged in a plane of stratification between the second heater supply lead and the measuring device (10, Figure 4) and the first heater supply lead is at an at least constant electrical potential, in the form of "a low-voltage" (Col. 5, lines 60-61). However, IMAMURA does not teach or suggest the limitations of the second heater supply lead forms a continuous printed trace with the heater or the second heater supply lead extending from the heater.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see Remarks, p. 5, filed June 15, 2009, with respect to claim 22 have been fully considered and are persuasive. The rejection of claim 22 has been withdrawn in light of the cancellation of the claim.
